

George Anderson

Keith Winter

Roger O'Dell

Bill Sharpe

Jill Seward

# Shakatak

After a number of successful top-twenty singles in the UK, the band went on to score unprecedented international success with the release of the classic 'Nightbirds' recording and the title track has now become a standard in the popular music repertoire. This success was repeated with the top-ten hit 'Down on the Street' and the award-winning video established the band's personnel of Jill Seward(lead vocs), Bill Sharpe(keys), Keith Winter(gtr), George Anderson(bass) and Roger Odell(drums). With the magic Al Jarreau/Shakatak combination, the group went on to record the track 'Day by Day' to further international acclaim (Shakatak website).

Along with this successful recording career, Shakatak had firmly established themselves as a vibrant live act, combining estute musicianship with a sense of fun that communicated strongly with world-wide audiences. Their performance in Japan's Budpen Hall won them a Silver Award at the Tokyo International Song Festival- other awards include the 'Best Instrumental Album' for 6 consecutive years- and other live concerts of note have been the East meets the West Border Concert at the time of German re-unification in 1989 and the open air concert in Cape Town for the Millennium Celebrations 2000 where they played in front of 250,000 people (Shakatak website).

# RECYCLE BICYCLE

## What is Recycle Bicycle?

We are a non-profit organization that collects bicycles so we can fix them and give them back to the community.

We also host several bicycle fixing stations at various locations. We will teach anyone who wants to learn the basics in building a bicycle.

## What else does Recycle Bicycle do?

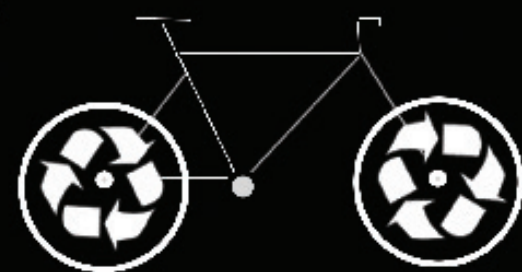

We also work with Pedals for Progress, where we send hundreds of bicycles to third world countries.

## What can I do?

We are asking people to make out donations to Recycle Bicycle of Harrisburg, Pa. and send them to this address: 6 Creekside Drive, Enola, PA 17025.

We are also accepting any type of bicycle part or bicycles.

We appreciate volunteers to aid in the repairing of bicycles as well.

Harrisburg, Pa

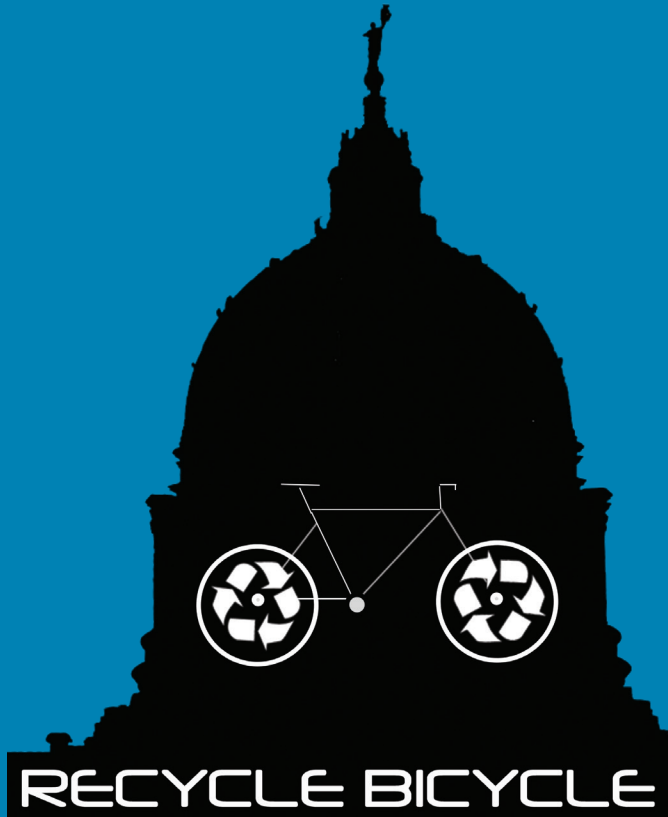

# What else?

In addition to fixing and supplying bicycles to the greater Harrisburg area, Recycle Bi-cycle also works in conjunction with a program called Pedals for Progress.

Pedals for Progress is a non-profit agency that collects thousands of used bicycles from the public through partnerships with local community service organizations, and donates them overseas for reconditioning and distribution for affordable transport (from their website).

The local charter is located in Gettysburg, Pa. Recycle Bicycle took part in removing pedals and fixing handle bars to prepare a shipment of 100 bikes to Uganda.

**RECYCLE BICYCLE**

Donations should be made out to Recycle Bicycle of Harrisburg, Pa. and should be sent to 6 Creekside Drive, Enola, PA 17025 (Patriot News)
